More Talk About Consu! Potter Seconing the Leader of the League-The Question of Color to Be Brought Up at the Na-tional Assembly-Oyation to Joe Rice, The members of the L. A. W. expect that an effort will be made at the meeting of the National Assembly in February to change the constitution of the League in order to admit colored wheelmen to membership. The dea has aroused widespread discussion. Several years ago, while Charles Burdett was President of the League, the Southern members threatened to secode from the organization unless the membership rule was changed. The word "white was inserted in the constitution only after a bitter fight, in which Sterling Elliott of Boston made a strong appeal against its adoption. The Southern division members agreed, in the event of carrying their point, to bring in 5,000 new members from the South. They have not fulfilled this promise, and there is a general feeling that the attempt to admit colored riders to membership will be strongly supported by some of the divisions.

Chief Consul Potter of this State when questioned by THE SUN reporter yesterday in relation to the chances of the admission of colored riders to the L. A. W. ventured the prediction that the question would not cut much of a figure at the assembly meeting. He refused to state how he thought the question would be handled. William S. Bull, Secretary-Treasurer of the New York division, said he could not tell what disposition would be made of the case.

Chairman Gideon of the Racing Board of the L. A. W. has accepted a number of new records this week. The official bulletin contains the following announcements:

In the event of the election of I. B. Potter of Brooklyn as President of the L. A. W., there is considerable speculation among the wheelmen of the city as to whether he would resign the office of Chief Consul. A prominent member of the State division said yesterday that while he feels confident Potter will be the next President of the league, he does not think that one man can consistently hold both offices. He gives his reasons as follows:

reasons as follows:
"The League's membership at present is larger than it has ever been before, and as the duties of the chief executive are so exacting, he should deepte his entire time exclusively to the should devote his entire time exclusively to the position. While I am a Potter man and auxious to see him made. Prevident of the League, I am convinced that the individual duties of each office are too great to allow one man to fill both. For example, take the Massachusetts division. Before Sterling Elliott became Prevident of the League he was Chief Consul of that division. Then it ranked as the largest in the L. A. W. But just as soon as he attempted to fill two positions the division dropped from first to third position, simply because he could not give proper attention to both."

Even more excitement than was anticipated signalized the annual election of the Greenwich Wheelmen on Tuesday night. Nearly every member on the roll recorded his vote. There was a sensational struggle for the premier office, and it was only after some hours of suspense that William Whelpley, representing the opposition and independent parties, was declared elected to the Presidency by just one vote over the regular candidate, C. E. Heydt. Vice-President Edward J. Reilly was reflected by a comfortable majority, and Treasurer Wm. H. Gardner polled a full vote. There was a neck and neck struggle for the Secretary's office, in which W. H. Jones of the opposition beat the regular candidate, C. K. McGuire, by two votes. For First and Second Lieutenants, William Ironsides and A. Adatte, the regular candidates, went through. The Governors elected were: William Grevoreous, H. P. Reynolds, Adolph Stahl, John Adatte, and Edward Makler, regulars: Thomas Walsh, opposition and independent and ike McNeill, independent. Vice-President Reilly will be Chairman of the Board. Even more excitement than was anticipated

WILKESBARRE, Dec. 16.—Joe Rice, who fin-taked second in the six-day bicycle race in Madison Square Garden; his trainers, Campbeli and Keller, and his backer, William Rutledge, arrived home last night. At the depot a crowd estimated at 8.000 persons were packed in a solid mass. A parade was formed, headed by the Ninth Regiment band and composed of all the wheel clubs and several societies of this city. The procession marched to the Grand Opera House through crowded streets, which were aglow with fireworks and red fire. Rice was seated in a handsome barouche drawn by were aglow with fireworks and red fire. Rice was seated in a handsome barouche drawn by four white horses. At the Opera House a mass meeting was held, which was addressed by the Mayor and other prominent citizens. Rice also made a short speech. A good-sized purse is being raised for the plucky rider, which will be given to him on Christmas morning. It will not run short of \$1,000.

St. Andrew's-Notes. A meeting of the newly elected Executive Committee of the St. Andrew's Golf Club was held on Tuesday evening, and it was decided, in accordance with the resolutions passed at the annual meeting on Dec. 9, to push along the work on the new Mount Hope links as rapidly as possible. The sentiment is President John Reid said yesterday, to make the links as complete as any in the world. Saturday's match at St. Andrew's for the R.

H. Robertson cup will be postponed on account of the snowfall until the first day the links will be in condition for a competion. The cup was offered in the spring, to be won by the player making the best average showing against a bogle score of thirty-nine, in this order: 5, 3, 4, bogle score of thirty-nine, in this order: 5, 3, 4, 4, 4, 4, 6, 5, 4. When the Greens Committee reviewed the cards hat month to select the winner it was discovered that so many had been lost that it was impossible to award the trophy on any fair basis. Fine individual performances against bogle were made by F. W. Merzies, A. L. livermore, G. E. Armstrong, L. B. Stoddart, W. H. Sabds, and others, but the insufficient data available made it impossible to choose from the candidates, and to equalize matters it was agreed to settle the ownership of the oup by one special competition, which will now be held whenever the weather permits.

which will now be held whenever the weather permits.

The snow will probably force a postponement of the Van Cortlandt Park handleap until early in January, but, should a thaw set in and the links be available. It may still be held on Dec. 20. James E. Hayes, Princeton,-B. was certainly nutited to the shot, and the referee was wrong in entitled to the shot, and the referee was wrong in his decision. The point is covered by rule 13, namely: "When the cue ball is in hand, the player may play from any place within the string at any object ball outside of it." There is nothing in this to prevent a player from striking cushions inside of the line, as in the banking shot made by it, was generous to his opponent in essaying the diffi-cult bank, and should have been rewarded for it, instead of penalized.

HOUREY.

Monteinir's Team Defents Vate by a Score of Six Gonis to One. Yale's crack bockey team was easily defeated last night by the Montclair A. C.'s seven at the Clermont Avenue Ice Rink, Brooklyn. The collegians were evidently not in their best form. and lacked practice. Their team play, both i attack and defence, was far below the standard. and was in striking contrast to the superb work of the Jersey players. In the first half Yale wa placed on the defensive nearly all the time, bu whenever Sheldon or Hyder carried the puck down the rink for a shot the attempt was nullified by expert blocking by Montclair's defence, and the rubber was inevitably sent back by

clever passing and almost faultless dribbling. There was quite a large crowd present to see the match, and the Yale men were expected to carry off the palm. Referee Reynolds put the puck down for the first face off at 8:40 o'clock. Sheldon passed the rubber to Ryder, whose rush was blocked by Place, and the latter then made a swift pass to M. Hornfeck. The latter's akates seemed to be fitted with springs, for he bounded

a swift pass to M. Hornfeck. The latter's skates seemed to be fitted with springs, for he bounded over the fee in speedy fashion, hopping the puck over the sticks of his opponents and finally shooting it between the goal posts before the Yale men knew what was up. It had taken just one minute to make the goal but the second one was even more quickly made. The puck went toward Yale's goal on the face off, and, aided by the prettlest kind of passing. M. Hornfeck drove the rubber past Lutton after fitty-one seconds of play.

With the score 'to 0 against them, the New Haven men braced up a little, and the rushing became faster. The rubber went sailing up and down the rinc, both teams showing skill in making carrom shots, and both goal teniers getting opportunities to block off drives. Finally Koehler began a run from near his own goal and then passed the pack clear across the rink to M. Hornfeck, who in turn shot it accurately to Place. The latter took the rubber while underway, and, with beautiful juggiing, made a side shot which resulted in the third g. al after 3 minutes and 45 seconds of play. Juring the remainder of the half the rubber was kept in the vicinity of Yale's goal, but no further scoring occurred.

The second half had scarcely begun when M.

remainder of the half the rubber was kept in the vicinity of Yale's goal, but no further scoring occurred.

The second half had scarcely begun when M. Hornfeck made a run nearly the entire length of the surface, dodging the whole Yale team and finally goaling with a difficult shot after I minute and 2 seconds had elapsed. Then the Yale men began to force matters, and by improved passing they gave Williams, the Moniciair goal tender, hair a dozen chances to distinguish himself by making wonderful stops. Moniciair's defence, especially that of Emerson and H. Horufeck, was quite effective, and Yale's attack soon became weak. Then it was that Koehler made a great drive from a pass by M. Hornfeck for the fifth goal, 12 minutes having elapsed. On the face off Yale had the advantage and Harnes sent the puck close to Montclair's coal, where Hyder, on a good was, shot it through the posts for Yale's only point. Fifty seconds later M. Hornfeck goaled again for Montclair, which made the final score 6 to 1. Summary:

FOREIGN YACHTING NEWS. James Gordon Bennett's Proposed New

For a year or more there have been rumors hat Mr. James Gordon Bennett was dissatisfied with his yacht Namouna and would soon place an order for a new and larger boat. Last week there was a story in THE SUN that he had nspected Eugene Higgins's new steam yacht Varuna before she satted for America, and that he was so pleased with her that he thought of ordering a new boat. The Yachting World of Dec. 4, in speaking of the matter, says:

"A week ago we stated that we would not be surprised to hear that Mr. James Gordon Bennett, who was greatly pleased with G. L. Watson's latest creation, the Varuna, intended to go in for another British-built up-to-date steam yacht. Such turns out to be really his inten-tion, it being stated with a show of authority that he will have a boat considerably larger than either the Varuna, the Margarita, or the Mayflower built at a British yard at an early date. The new boat, it is reported, will be over 300 feet long."

date. The new boat, it is reported, will be over 300 feet long."

The same paper in commenting on the rather severe penalties in the way of time allowance imposed on A. B. Walker's Alisa as against the Prince of Wales's Britannia, says:

"Mr. Andrew Barciay Walker is rather sore over the new time scale just approved by the Yacht Racing Association for the first-class boats, and he confesses that he is very doubtful whether he will place the Alisa in commission for the coming season. The withdrawal of the Fife crack from racing, especially as we are unlikely to have the Satanita again in racing trim, would be a great blow to the sport, and we trust that although Alisa has not been favored by the various changes which have taken place in legislation since she was built. Mr. Walker will continue to race her as hard in the future as he has dene in the past. Mr. Walker points out that in 1895 Alisa had to allow Britannia im, 7s., and in the season of 1896, with a new rule and a decreased sail area, the allowance was raised to 3m. 23s. over a 50-mile ance was raised to 3m. 23s, over a 50-mile course, while now the Fife boat is handicapped to the extent of over five minutes, and he natu-rally enough asks the question. When is this go-ing to stop?"

The Knickerbocker Yacht Club of College Point held its annual meeting and election of officers last evening in parlor A of the Grand Union Hotel. There was a large attendance of yachtsmen, and the regular ticket was elected without any opposition. The Secretary in his report stated that there were 120 members and fleet of sixty-nine yachts, which included four steamers, four schooners twenty-nine sloops, two yawls, twenty-four cats, and eight naphtha launches. The Treasurer's report showed that the last two bonds of an issue of \$3,000, which were placed when the club moved its house from Port Morris to College Point, had been paid and that the club was in a prosperous condition. The officers elected fol-low:

SCHARF'S LATEST CHARGES.

ignin, It Is Said. They Are Controverted by Collector Kilbreth. Collector Kilbreth forwarded to Washington resterday his report on the very latest charges of Chinese Inspector J. Thomas Scharf concerning alleged frauds in the admission of Chiua-

men over the Canadian border into New York

State. Collector Kilbreth could not hand out

for publication a copy of his reply to Mr. Scharf, because it is an official document sent to Scharf, because it is an official document sent to Secretary Carliste. It was made known, though, that the Collector again disputes, by facts and figures, the charges of Scharf.

Those who watch the affairs of the New York Custom House coverly pointed out yesterday that there is some person in the Treasury Department at Washington who has for the last two or three years been leager to give out for publication all of Scharf's charges, and yet the same person does not appear to be so eager to give out the official documents which have contradicted Scharf and discredited by facts and ingures the charges he has made to Secretary Carlisle. In a word, it was had that this person hands out for publication documents of an irresponsible character which to the unfnitiated tend to discredit the Federal Administration in the State of New York, and yet is not generous enough to furnish official documents which disprove Scharf's charges.

enough to furnish official documents which disprove Scharf's charges.

It is well known that for the past two years or
so certain officials in the Treasury Department
at Washington have been willing to tumble
Scharf out of the Government service and that
this step was not taken because there was no
disposition "to punish Senator Gorman," whose
protege Scharf claims to be. Senator Gorman,
it was ascertained, doesn't care a rap for Scharf,
and even if he did, he is not the man, it was
added, to wish any Administration to protect a
public servant on his account.
